

Clarii mini

Simple fingering, diverse sounds
Your first portable digital wind instrument

TAO Engine

The core of Clarii mini’s sound, now upgraded with enhanced performance and control. Experience deeper, more authentic, and expressive sounds. Every nuance of your playing comes to life.

Boosted Dynamics

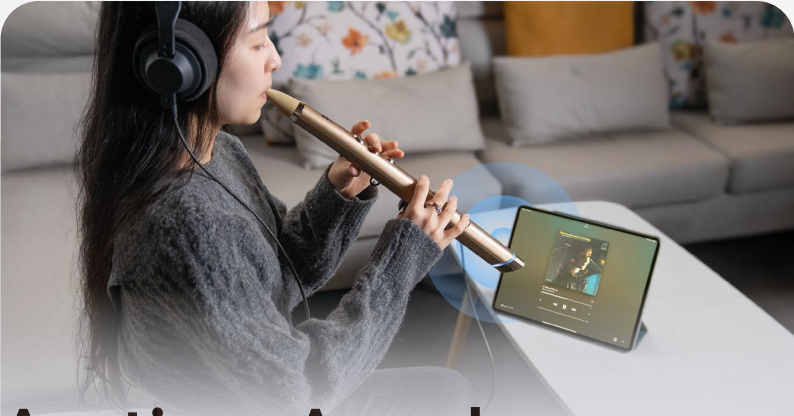

Expressive Vibrato

Stereo Reverb

Motion-Powered Musicality

Sculpt sounds with customizable motion control, adding pitch bend, portamento, and vibrato. And with Shake&Play sounds, you can instantly transform Clarii mini into a shaker, rainstick, or sonic sword.

Anytime, Anywhere

Clarii mini's HQ built-in speaker is perfect for daily fun, while Bluetooth audio support lets you play along to your favorite songs wirelessly. At just 263g (apple-light), it's ultra-portable.

3D Glide

Inspired by open-hole wind instruments like Tin Whistle, 3D Glide transforms all seven note keys into expressive pitch-bend surfaces, allowing nuanced techniques such as finger slides, scoops, and half-holing.

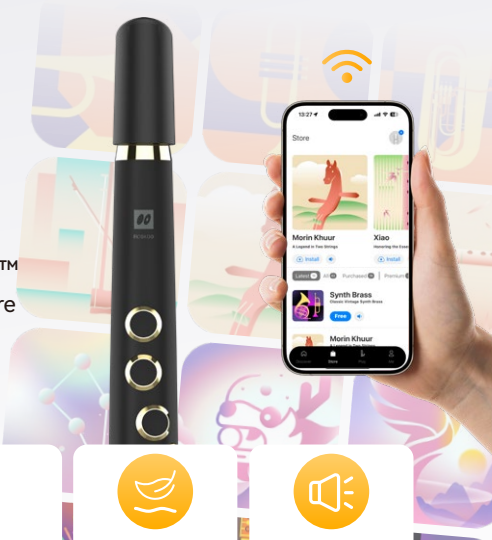

Your First Digital Piccolo

With the new flute mouthpiece, the compact Clarii mini easily transforms into a digital piccolo, featuring an improved motion control for natural, responsive vibrato while playing horizontally.

*Optional flute mouthpiece add-on available.

Your Sound, Your Choice

Clarii App offers a vast sound library with world’s first Sound On-Demand™ technology. Download and enjoy more sounds offline, tailoring your perfect instrument.
